

# GDA125 GreatDaneAudio

by

One word comes to mind, when describing the sound of a JJAZ speaker including the GDA125: **Effortless!**

The see-through experience is phenomenal, every detail on the CD or LP is mercilessly reproduced by the speakers.

Airiness and the "being there" experience is benchmark standard. Nothing nice, sweet or painted with big brushes! But a reference level of details and "live at home" soundstage.

The drivers are the best there is! The crossover is a masterpiece combination of design, high-end components and layout. Our Danish hand crafted cabinets are a work of art when it comes to a correct speaker enclosure.

|                                     |  |
|-------------------------------------|--|
| <b>Description</b>                  | 2-way reflex-loaded speaker                    |
| <b>Frequency response</b>           | 100 - 40.000 Hz $\pm 2$ dB (-6 dB @ 57 Hz)     |
| <b>Crossover</b>                    | 2.500 Hz passive with 4th-order acoustic slope |
| <b>Sensitivity (2.83V/1m)</b>       | 88 dB  |
| <b>Nominal impedance</b>            | 4 ohm (3 ohm minimum)                          |
| <b>Rec. Amplifier power (4 ohm)</b> | 50 – 500 W                                     |
| <b>High frequency driver</b>        | 1 x 1" Scanspeak Ringradiator                  |
| <b>Low frequency drivers</b>        | 2 x 5¼" custom HDS units with VCRDP            |
| <b>Dimensions (h x w x d)</b>       | 47 x 19 x 30 cm                                |
| <b>Weight</b>                       | 15 kg per speaker                              |
| <b>Finish</b>                       | Painted  |
